## How It Works:

### Step One:

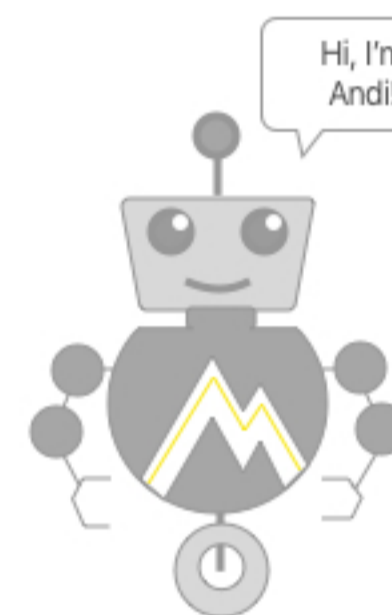

Add your favorite content: articles, websites, videos! Just paste the URL to the content you want to include.

### Step Two:

Create your own questions or choose from questions created by other teachers.

Andi, our AI robot helps decide which questions are effective and suggests questions that you can edit and assign saving you time!

### Step Three:

Assign quizzes to assess your students' understanding of the material.

### Step Four:

See and Track student progress with Mt. Cleverest's personalized metrics.

Start sharing resources and quiz questions with other teachers on Mt. Cleverest!
